

Lubit-8

Tufoil Technology Lubricant

DESCRIPTION

Lubit-8 is a versatile, general-purpose lubricant that prevents rust and acts as a cleaning agent. It can stop locks from freezing, penetrate deeply to free “frozen” nuts and bolts, stop squeaks, and free up sticky door locks. Every home, office, and tool box should have one.

Lubit-8 extends the service life of precision bearings. It leaves no oily residue, is compatible with all oils and greases, and remains stable from -60° to +500°F. Its remarkable lubricity and protective qualities will last almost indefinitely. Its dependability and convenient applicator make it indispensable in your home or work place.

TYPICAL APPLICATIONS

Lubit-8 applications include:

- precision bearings
- door locks and hinges
- nuts and bolts
- small motors
- power tools
- window hardware
- sewing machines
- squeaky chairs

TYPICAL PROPERTIES

Lubit-8 is a tan, low-odor liquid lubricant engineered using the advanced lubrication properties found in all Tufoil Technology products.

Lubit-8 is available in two styles of oilers: the 1/2 ounce “handy” oiler with a snub nose tip and the 1/4 ounce “pen” oiler with a hypodermic-type needle nose for getting into tight areas with extreme precision.

Available sizes for Lubit-8:

- .5 oz Handy Oiler
- Quart
- 5 Gallon
- .25 oz. Pen Oiler
- Gallon

APPLICATION DETAILS

Apply liberally to a clean, dry surface.

STORAGE/SHIPPING/HANDLING

No special handling required.

HEALTH & SAFETY

Lubit-8 is a very safe solvent-free product. Wash hands after use. Keep product out of eyes.
